

The Chasing Flexilight, 1/2" in diameter and rated at 35,000 hours, can create various lighting motions with different controller models. Motion enables the Chasing Flexilight to create dynamic and vivid decorations. It is perfect for catching attention and creating an energetic atmosphere. Since we only use the highest-quality PVC material with supplemental UV additives, the Chasing Flexilight can be used in indoor or outdoor applications and can handle very high and low temperatures. It can be used to make advertisement signs and decorations for gateways and buildings.
